Introduction to the Company

The world is evolving rapidly with emerging technologies shaping the way we live, work, and connect. In this digital era, continuous learning and adaptability are essential to staying ahead. At WorldWithWeb, we believe in the power of knowledge, innovation, and digital transformation to unlock new opportunities. For over 20 years, we have been a trusted provider of industry-leading training, empowering thousands of students, professionals, and business owners with the skills needed to thrive in a fast-changing landscape.

Through our certification-backed programs, expert-led courses, and cutting-edge learning methodologies, we bridge the gap between technology and people, enabling lifelong growth and success.

Our Mission

To empower individuals, professionals, and businesses by fostering a culture of continuous learning, innovation, and adaptability. We strive to provide high-quality, industry-relevant knowledge that helps people embrace technology, improve efficiency, and create impactful solutions for a better future.

Our Vision

A world where technology enhances human potential, enabling individuals and communities to grow, innovate, and succeed. We envision a future where education and digital transformation work hand in hand to create a more inclusive, connected, and forward-thinking society.

Why Choose Us?

At WorldWithWeb, we provide an industry-leading learning experience designed to help individuals and businesses succeed. Here's why thousands trust us:

- » Expert-Lead Training
- » Certification-Backed Programs
- » Practical Learning
- » Flexible Learning Modes
- » Career Support
- » Cutting-Edge Curriculum

50,000+ Professionals Trained

100+ Industry-Recognized Certifications Offered

90% Success Rate in Career Transitions

Learning Paths

At WorldWithWeb, learning isn't just about theory—it's about real-world skills, hands-on projects, and career-ready expertise. Whether you want quick upskilling or deep mastery, we have the right path for you.

Each course is crafted with real-world applications, expert-led training, and hands-on projects to help you stay ahead in today's competitive landscape.

Skill Builder Courses

- Programming and Development
- Graphic Desing and Video Editing
- Cloud and Networking
- IT tools and Productivity
- Business and Finance

Career Programs

- Full Stack Development
- Digital Marketing and SEO
- Data Science and Machine Learning
- AI and Deep Learning

AI Tools Training

Industrial Projects

Portfolio Building

Certifications

Skill Builder

Courses

Programming
and
Development

Coding Skills

Choose one language

Learn the foundations of coding with hands-on problem-solving in C/C++ or Java or Python.

Master data structures & algorithms for efficient programming.

40 Hours: Programming Language Only

25 Hours : Language + Data Structures & Algorithms (DSA)

Syllabus Overview

(Per Language)

- Core Programming (C/C++ or Java or Python)
- Data Structures & Algorithms (DSA)
- Competitive Programming
- AI-Powered Coding Tools
- Object-Oriented & Functional Programming Concepts

Certifications

IBM IT Languages: Java, Python, C, C++ and more

*with additional charges

Web Designing

90Hrs

Build dynamic websites and applications with full-stack development. Learn frontend & backend with the latest tools.

Syllabus Overview

- Frontend: HTML5, CSS3, Bootstrap, Tailwind CSS, JavaScript (ES6+)
- Figma and Photoshop
- WordPress Development

UI/UX

60Hrs

Master the art of creating visually appealing and user-friendly designs. This course focuses on enhancing user experience through intuitive interfaces and effective design principles.

Syllabus Overview

- Design Thinking – Understanding user needs
- User Research – UX fundamentals, heuristics
- Wireframing & Prototyping – Figma, Photoshop
- Usability Testing & UX Psychology
- Visual Design & Aesthetics

Web Development

90Hrs

Build powerful, dynamic web applications using full-stack JavaScript development.

Choose between the MERN Stack (MongoDB, Express.js, React.js, Node.js) or MEAN Stack (MongoDB, Express.js, Angular, Node.js).

Syllabus Overview

- Frontend: HTML5, CSS3, Bootstrap, Tailwind CSS, JavaScript (ES6+), React.js (for MERN) / Angular (for MEAN), Next.js (optional for advanced MERN learners)
- Backend Development: Node.js, Express.js. Authentication, MVC architecture, middleware handling
- Database Management: MongoDB (NoSQL), Firebase or Supabase (optional integration for MERN/MEAN)
- APIs & Integration: RESTful API development, Postman
- Deployment & Tools: Git, GitHub, CI/CD basics. Hosting with Vercel, Netlify, or Heroku

Mobile App Development

60Hrs

Master mobile app development with native and cross-platform technologies, building powerful apps for Android and iOS.

Syllabus Overview

- Native Development – Android (java or Kotlin)
- Cross-Platform Development – Flutter, React Native
- Backend & Databases – Firebase, Supabase, Node.js
- UI/UX for Mobile Apps – Material Design, SwiftUI
- App Deployment & Maintenance – Play Store, App Store

Graphic Design

60Hrs

Learn visual storytelling with industry-standard tools like Photoshop, Illustrator, and Canva for professional design.

Syllabus Overview

- Photoshop – Image Editing, Retouching, Compositing
- Coral Draw
- Illustrator – Logo Design, Vector Graphics, Typography
- Canva & Online Tools – Quick Designs, Social Media Graphics
- Branding & Marketing Design – Posters, Ads, Product Packaging
- UI Graphics – Web & App Design Essentials

Video Editing

40Hrs

Master professional video editing and motion graphics with tools like Premiere Pro, After Effects, and DaVinci Resolve.

Syllabus Overview

- Video Cutting, Transitions, Color Grading
- After Effects – Motion Graphics, Visual Effects, Animation
- DaVinci Resolve – Advanced Editing, Color Correction
- Audio Editing – Sound Design, Noise Reduction
- Content Creation Techniques – YouTube & Social Media Video Production

Certifications

- Visual Design using Adobe Photoshop
- Graphic Design and Illustration using Adobe Illustrator
- Digital Video using Adobe Premiere Pro

*with additional charges

Cloud Computing

50Hrs

Learn the fundamentals of cloud platforms like AWS, Azure, and Google Cloud to build scalable, secure, and efficient cloud-based solutions.

Networking

40Hrs

Gain expertise in networking, security, and infrastructure with hands-on experience in routing, switching, and cybersecurity.

DevOps

50Hrs

Learn the principles of automation, continuous integration, and cloud deployment with industry-leading DevOps tools.

Certifications

- IBM DevOps
- IBM Cloud Computing

*with additional charges

Syllabus Overview

- Cloud Fundamentals – AWS, Azure, Google Cloud basics
- Compute Services – EC2, Lambda, Cloud Functions
- Storage & Databases – S3, Cloud Storage, RDS, Firestore
- Networking & Security – VPC, IAM, Cloud Firewalls
- DevOps on Cloud – Serverless, Infrastructure as Code (IaC)

Syllabus Overview

- Networking Basics – TCP/IP, OSI Model, IP Addressing
- Routing & Switching – VLANs, Subnetting, Cisco Configurations
- Network Security – Firewalls, VPNs, Intrusion Detection
- Wireless & Cloud Networking – SDN, Cloud Security
- Cybersecurity Fundamentals – Ethical Hacking, Threat Prevention

Syllabus Overview

- Version Control & Collaboration – Git, GitHub, GitLab
- Containerization & Orchestration – Docker, Kubernetes
- Infrastructure as Code (IaC) – Terraform, Ansible
- CI/CD Pipelines – Jenkins, GitHub Actions, GitLab CI/CD
- Cloud DevOps – AWS, Azure DevOps, Google Cloud DevOps

Advanced MS Office

48Hrs

Enhance productivity with expert-level skills in Word, PowerPoint, and Excel, including modern office tools.

Syllabus Overview

- Microsoft Word – Formatting, Templates, Document Automation
- Microsoft Excel – Formulas, Pivot Tables, Data Analysis
- Microsoft PowerPoint – Slide Design, Animations, Presentations
- Google Suite – Google Docs, Sheets, Slides for collaboration
- Trendy Additions – Notion, Microsoft Copilot, AI-powered Office Tools

Advanced Excel

30Hrs

Master Excel for data analysis, automation, and visualization, unlocking efficiency and insights for business professionals.

Syllabus Overview

- Core Skills – Formulas, Functions, Pivot Tables, Data Analysis
- Automation – Power Query, Macros, VBA
- Dashboards – Charts, KPI tracking, Conditional Formatting
- Productivity Boosters – Excel Shortcuts, Templates, Data Validation

Excel with PowerBI

40Hrs

Transform raw data into powerful business insights using Excel + Power BI.

Syllabus Overview

- Excel Review – Advanced Functions, Pivot Tables, Power Query
- Power BI Basics – Interface, Data Import, Data Modeling
- Visualizations – Reports, Interactive Dashboards, DAX
- Publishing – Sharing via Power BI Service, Embedded Reports
- Use Cases – Sales, Finance, HR dashboards

SQL & Tableau

40Hrs

Learn data querying and visualization from scratch to pro using SQL + Tableau.

Syllabus Overview

- SQL Fundamentals – SELECT, WHERE, JOINS, Aggregations
- Advanced SQL – Subqueries, Views, Stored Procedures
- Tableau Essentials – Connecting Data Sources, Filters, Calculations
- Visualizations – Interactive Charts, Dashboards, Storytelling
- Project – Build a live Tableau dashboard from SQL data

Tally & Quickbooks

60Hrs

Master accounting software like Tally and QuickBooks for financial management, taxation, and payroll processing. Intuit Quickbook Certified user

Syllabus Overview

- Accounting Basics – Ledger, Balance Sheet, Taxation
- Financial Statements – Profit & Loss, Trial Balance, GST Filing
- Payroll & Taxation – TDS, Income Tax, Salary Processing
- Inventory & Invoicing – Purchase, Sales, Stock Management
- Advanced Features – Budgeting, Bank Reconciliation, Automation

Business Analytics

40Hrs

Learn to manage business data, generate insightful reports, and improve decision-making with MIS tools.

Certifications

- IBM Business Analytics

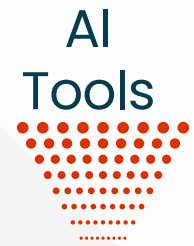

*with additional charges

Syllabus Overview

- Data Analysis – Business Intelligence, Power BI, SQL
- Tableau
- Reporting & Dashboards – Excel, Pivot Tables, VBA
- Business Analytics – KPI Tracking, Financial Modelling
- Database Management – MS Access, MySQL, Google Sheets
- Automation & Forecasting – Power Query, AI in MIS

AI-Tools Training

AI Tools

15-30Hrs

Master AI-powered tools for content creation, automation, marketing, coding, and business efficiency in one powerful training.

Career benefits

- ✓ Automate Tasks & Boost Efficiency
- ✓ Create Content Faster & Smarter
- ✓ Enhance SEO & Marketing Performance
- ✓ Speed Up Coding & Software Development

Syllabus Overview

- Creative Content Tools – AI for design, image & video generation
- Writing & Text Tools – AI for blogs, copywriting, summarization
- Video & Audio Tools – AI for editing, dubbing, music
- Marketing & SEO Tools – AI for ads, SEO, automation
- Business & Productivity Tools – AI for workflows, scheduling
- Coding & Developer Tools – AI-assisted coding, debugging
- AI Tools for Excel & Data – AI for automation, analytics

15

Career Programs

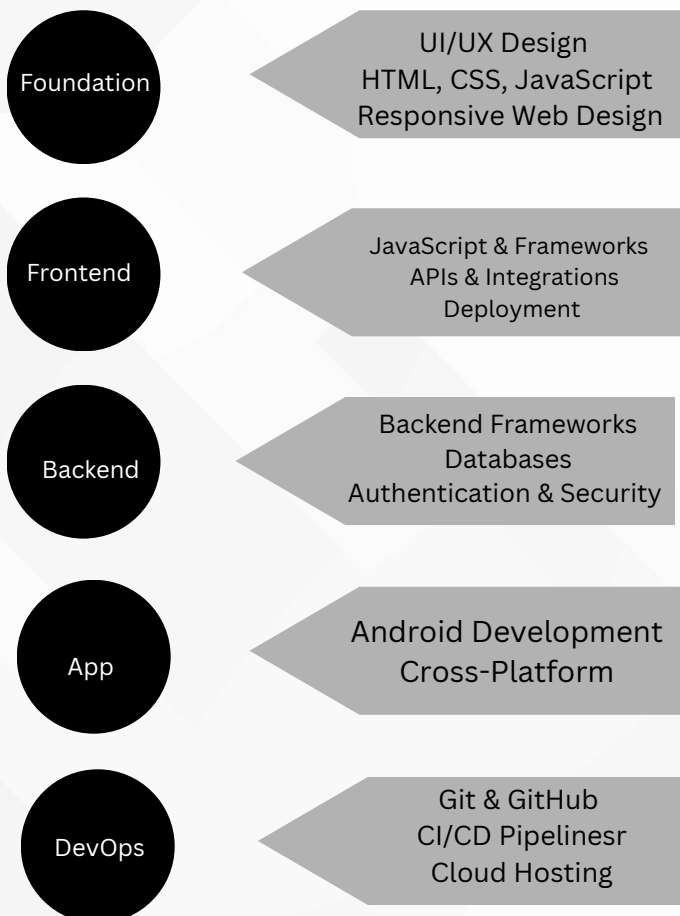

Development

Full-Stack Development

120-150Hrs

A comprehensive full-stack development program covering frontend, backend, and mobile app development with real-world projects.

Syllabus Overview

- Part 1: Web Development – UI/UX, Photoshop, Illustrator, HTML, CSS, JavaScript
- Part 2: Backend Development – Python/ React/ Java, APIs, Databases
- Part 3: Mobile App Development – Java or Kotlin (Android)/ Flutter (Cross-Platform)
- Version Control – Git, GitHub, CI/CD Integration
- Mini & Final Projects – Industry-Level Hands-on Training

Certifications

- IBM Full Stack Developer

*with additional charges

This comprehensive program is divided into specialized modules. You can:

- Focus on Frontend + Backend + DevOps
- Choose Mobile App Development + DevOps
- Or take the entire program to become a complete Full-Stack Developer

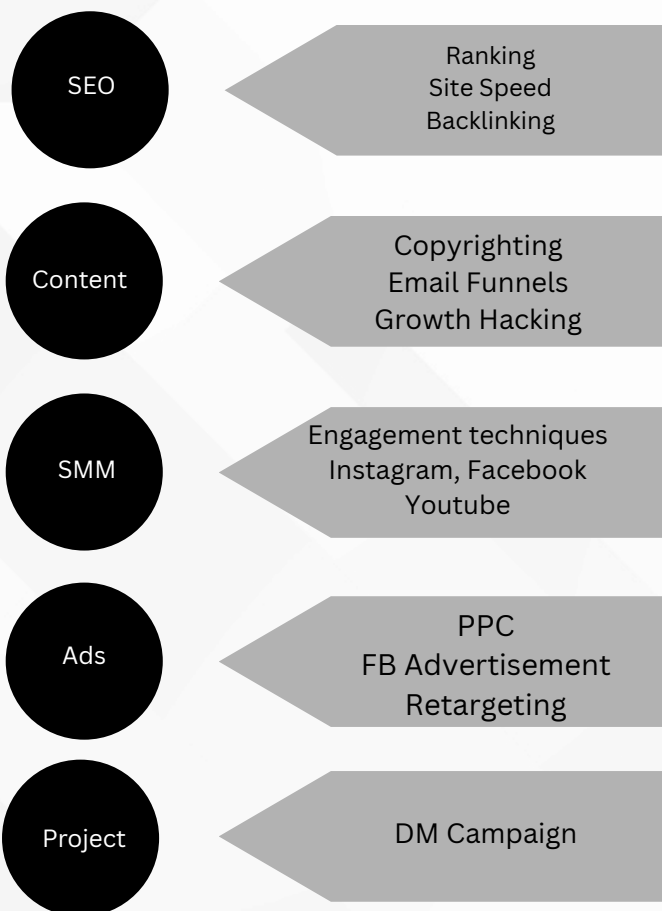

Digital Marketing & SEO

160-180Hrs

A hands-on, project-driven course covering SEO, social media, content marketing, and paid advertising strategies to drive business growth.

Syllabus Overview

- Part 1: SEO & Website Optimization – On-Page & Off-Page SEO, Technical SEO, Keyword Research, Google Search Console
- Part 2: Content Marketing – Blog Writing, Copywriting, Email Marketing, Lead Generation
- Part 3: Social Media Marketing – Instagram, Facebook, LinkedIn, Twitter, YouTube Growth
- Part 4: Paid Ads & Analytics – Google Ads, Facebook Ads, PPC, Performance Tracking with Google Analytics
- Mini & Final Projects – Real-World Digital Marketing Campaigns

Certifications

- Meta Digital marketing Associate

*with additional charges

Data Science

160-180Hrs

A career-focused program covering data analytics, business intelligence, and big data, with hands-on projects and industry-relevant tools.

Foundation

Excel, Python, R

Database

SQL
Data manipulation
Data visualization

Dashboard

Tableau
Power BI
Dashboard Development,

Big data

Big Data
Hadoop

Automation

Git&GitHub
Data Pipelines
Automation

11

Syllabus Overview

- Part 1: Data Analytics – Excel, SQL, Python, R, Data Cleaning, Data Preprocessing
- Part 2: Business Intelligence – Tableau, Power BI, Dashboarding, Data Storytelling
- Part 3: Big Data & Hadoop – Data Processing, Distributed Computing, MapReduce
- Data Engineering Basics – ETL Pipelines, Data Warehousing, Automation
- Mini & Final Projects – Real-World Data Case Studies

Certifications

- Microsoft Azure Data Fundamentals (DP-900)
- IBM Data Science
- IBM Big data Analytics

*with additional charges

Machine learning & AI

200-220Hrs

A career-focused program covering data analytics, business intelligence, and big data, with hands-on projects and industry-relevant tools.

Foundation

Python and
libraries

Image Data

Computer Vision
CNN

Text Data

NLP
Sentiment analysis
Chatbot

Deep
Learning

DL
LSTM
LLM

Automation

Git&GitHub
ML Pipelines

Syllabus Overview

- Part 1: AI/ML Foundation
Python, Pandas, Numpy,
Data Cleaning, ML Basics
(Supervised & Unsupervised)
- Part 2: Computer Vision
Image Preprocessing,
TensorFlow, CNN Projects
(e.g., Tumor Detection, Fire
Detection)
- Part 3: NLP & Text Analytics
NLP with NLTK/SpaCy,
Sentiment Analysis, Spam
Detection
- Part 4: Deep Learning &
LLMs
Keras, RNN, LSTM, GPT,
BERT, Final Projects with
Chatbots & DL Apps

Certifications

- Microsoft Azure AI
Fundamentals (AI-900)
- IBM Artificial Intelligence
- IBM Machine learning
with Python

*with additional charges

Industry-Ready Skills

Certified Courses!

Why Choose Our Courses?

- Globally Recognized Certifications – Boost your resume & job prospects
- Hands-on Learning – Real-world projects & industry scenarios
- Expert-Led Training – Learn from professionals with real-world experience
- Flexible Learning – Online & Offline options to suit your schedule

Hands-On Projects

- Real-World Case Studies – Work on actual industry challenges
- Mini & Capstone Projects – Build complete applications, AI models, and more
- Portfolio Building – Showcase your work for career growth

Career benefits

- ✓ Job-Ready Skills – Get industry-relevant expertise
- ✓ High-Demand Career Paths – From DevOps to Data Science & AI
- ✓ Internship & Placement Assistance – Support to land your dream job

How to Get Involved

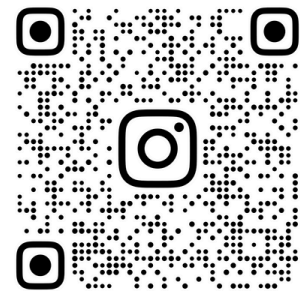

Steps to Enroll

- Explore our wide range of courses – Skill-BUILDER, Career-Programs & Specializations. Pick the one that aligns with your career goals
- Visit our website. Fill out the registration form.
- Make a secure payment .
- Start the journey to success.
